Paperback: 979-8-9941443-0-5  
Hardcover: 979-8-9941443-1-2  
eBook: 979-8-9941443-2-9

# CONTENTS

List of Figures .....	xiii
List of Tables .....	xvii
About the Author .....	xix
Acknowledgments .....	xxi
Special Thanks to My Beta Readers .....	xxiii
Preface .....	xxv

## CHAPTER 1

Light the Beacons of War: The Art of Managing Free-to-Play Games .....	1
Summary .....	1
Leading in the Present .....	2
Crafting the Goals and Product Vision .....	3
Leading the Team by Influence .....	5
Driving Team Execution .....	9
Knowing the Competitive Landscape .....	10
Crafting the Future .....	12
The Product Development Cycle .....	12
Determining What to Build .....	15
RICE Scoring Framework .....	17
Effort–Impact Scoring Framework .....	18
Curating the Roadmap .....	19
Feature Design and Specifications .....	20

<b>Learning from the Past</b> .....	<b>25</b>
Adapting Data to Your Audience .....	26
Writing Well-Crafted Reports .....	27
Daily Report .....	28
Weekly Report .....	30
Product/Business Review.....	31
Feature Readout .....	32
<b>Navigating Through Crisis</b> .....	<b>33</b>
<b>Conclusion</b> .....	<b>34</b>

## CHAPTER 2

<b>Chasing the Mother Lode: Retention and Active Player Management</b> .....	<b>39</b>
<b>Summary</b> .....	<b>39</b>
<b>Active User Theory</b> .....	<b>40</b>
The Reachable Player Onion .....	40
Relating DAU to WAU: Weekly Engagement.....	41
Decomposing DAU: Weekly Engagement and Regularity .....	43
The Leaky Bucket Model.....	43
Impact of Compound Weekly Declines .....	45
<b>Active User Base Analysis</b> .....	<b>46</b>
DAU Versus Projections Graph.....	46
WAU Flow Graph .....	47
MAU Flow Graph .....	49
<b>Channel Active User Analysis</b> .....	<b>50</b>
Channel DAU.....	51
Cross-Channel Cannibalization .....	51
Channel DAU or New User Walk.....	52
<b>User Retention Analysis</b> .....	<b>54</b>
Daily Retention Rates.....	54

Weekly User Return Rates .....	54
Daily Retention Rates Versus Weekly User Return Rates.....	56
<b>Other Engagement Metrics .....</b>	<b>58</b>
<b>Active User Projections.....</b>	<b>59</b>
Regression Model .....	59
Weekly User Return Rate Model.....	60
<b>Addressing Retention Issues.....</b>	<b>60</b>
<b>Conclusion .....</b>	<b>62</b>

## CHAPTER 3

<b>Set Sail for Gold, Gems, and Glory: Monetization and Managing In-Game Economies .....</b>	<b>65</b>
<b>Overview .....</b>	<b>65</b>
<b>What Do Players Buy and Why?.....</b>	<b>66</b>
<b>Monetization Strategy .....</b>	<b>66</b>
<b>Virtual Economy Theory.....</b>	<b>68</b>
The Structure of Game Economies.....	68
The Virtual Currency Life Cycle .....	70
Sources .....	71
Sinks .....	71
ΔWallet.....	72
The Payer Life Cycle .....	73
<b>Source Side Analysis .....</b>	<b>74</b>
Revenue Analysis.....	75
Payer Analysis.....	78
Conversion Rate .....	80
Weekly Active Payer Flow.....	80
Monthly Active Payer Flow.....	82
Payer Size Analysis.....	83
Package Analysis.....	84

<b>Sink Side Analysis</b> .....	<b>87</b>
Spender Analysis .....	87
Weekly Active Spenders .....	88
Spend Size Analysis .....	89
Spend by Category .....	90
<b>Wallet Analysis</b> .....	<b>91</b>
Wallet Size Analysis .....	92
Daily Net Currency Flow Graph .....	93
Cumulative Overhang .....	94
<b>Discount Currency Offers</b> .....	<b>95</b>
<b>Game Profitability</b> .....	<b>96</b>
<b>Conclusion</b> .....	<b>97</b>

## CHAPTER 4

<b>Delving into Dungeons Deep: Lifetime Value Analysis</b> .....	<b>99</b>
<b>Overview</b> .....	<b>99</b>
<b>Understanding Lifetime Value</b> .....	<b>99</b>
Calculating the LTV Curve .....	101
Underlying Components of LTV .....	102
Revenue Per Install .....	103
<b>Early Retention Analysis</b> .....	<b>103</b>
Day-by-Day: Day <i>n</i> Retention .....	103
Retention Stacks .....	106
The Retention Curve .....	106
Player Duration .....	109
Step-by-Step Retention .....	109
Intro Tutorial Retention .....	109
Early Content Retention .....	112
<b>Early Monetization Analysis</b> .....	<b>115</b>
Cohort Revenue per Player .....	115

Cohort Conversion ..... 117

Payer Reconversion ..... 119

Cohort Revenue per Payer ..... 120

First Purchase Package Analysis ..... 121

**Predicting Lifetime Value ..... 122**

    Monetization Curve Model Using Historical Data..... 123

    LTV Projection Model..... 125

    LTV Component Projection Model ..... 127

    Using Lifetime Value Predictions ..... 128

**Conclusion ..... 129**

**CHAPTER 5**

**The Dark Art of Summoning Players: Growth and the Central Business Equation ..... 131**

**Overview ..... 131**

**Central Business Equation ..... 132**

**User Acquisition ..... 133**

        Paid User Acquisition ..... 133

        Organic Installs ..... 135

        Cross Promo Installs ..... 135

        Other Install Sources ..... 136

        Understanding Cost Per Install..... 136

**Unit Economics ..... 137**

        Return on Investment ..... 138

        Return on Ad Spend ..... 139

        Days to Breakeven ..... 140

**Early Cohort Signals..... 141**

**Conclusion ..... 142**

**CHAPTER 6**

<b>Missions and Mayhem: Content and LiveOps Analysis.....</b>	<b>145</b>
<b>Summary .....</b>	<b>145</b>
<b>Content Analysis Framework and Strategy.....</b>	<b>146</b>
Content Type: Discrete Versus Integrated .....	146
Content Structure: Category, Hierarchy, and Sequence .....	147
<b>Revenue Analysis.....</b>	<b>148</b>
Payer Participation Funnel .....	149
Return-to-Player Analysis .....	152
Comparative Category Spend .....	154
Spend over Time .....	155
<b>Retention Analysis .....</b>	<b>156</b>
Marketing Adoption Funnel .....	156
Progression Funnel .....	159
<b>Comparative Content Performance .....</b>	<b>161</b>
<b>Progression Mechanisms: Discrete vs Continuous vs Mixed.....</b>	<b>163</b>
Optimizing Discrete Level Performance .....	164
Discrete Level Difficulty .....	165
Discrete Level Retention .....	170
Discrete Level Monetization .....	171
<b>Content Strategy .....</b>	<b>172</b>
<b>Reporting Performance.....</b>	<b>174</b>
<b>Conclusion .....</b>	<b>176</b>

**CHAPTER 7**

<b>Finding Inner Balance: Game Tuning and Economy</b>	
<b>Balancing .....</b>	<b>179</b>
<b>Overview .....</b>	<b>179</b>
<b>What is Game Balancing? .....</b>	<b>180</b>
<b>Game Management and Game Balance .....</b>	<b>181</b>

**Game Balancing Methodology** .....182

**Game Balance Principles** .....184

    Create an Entertaining Experience ..... 184

    Create Potential and Desire for Players to Monetize ..... 185

    Craft the Player Journey ..... 187

    Ensure Long-Term Resilience and Maintainability ..... 188

**Utilizing Computational Methods** .....191

    Examining Game Model Predicted Progression ..... 192

    Examining Game Model Predicted Economy ..... 193

**Utilizing Player Analytics** .....194

    Long-Term Progression ..... 194

    Player Inventory over Time ..... 197

    Monetization Depth ..... 198

**Conclusion** .....199

**CHAPTER 8**

**Critical Hits and Statistical Misses: Taming Random Systems** ..... 201

**Overview** .....201

**Impact of Random Systems** .....202

**Primer on the Essentials of Probability** .....202

    Probability Theory ..... 203

    Four Rules of Probability ..... 203

        Rule 1: The Probability It Does Happen ..... 203

        Rule 2: The Probability It Does Not Happen ..... 206

        Rule 3: The Probability That Either Happens ..... 208

        Rule 4: The Probability That Both Happen ..... 210

    The Binomial Distribution ..... 212

    Monte Carlo Simulations ..... 215

<b>Evaluating Probability in Games</b> .....	<b>216</b>
Single Event Probabilities .....	216
Collection Completion Probabilities .....	220
<b>Shortcomings of RNG</b> .....	<b>223</b>
Magical Swords in Buried Treasure Chests .....	223
Expert Dragon Hunters and Baby Dragons .....	225
The Unlucky Player Problem .....	227
Weighted Loot Table .....	227
Pity Momentum Loot Table .....	228
Deck of Cards Loot Table .....	229
Comparative Loot Table Algorithm Performance .....	230
The Duplicates Problem .....	233
<b>Player Perceptions of Randomness</b> .....	<b>234</b>
Understanding Player Psychology .....	234
Adapting to Player Psychology .....	236
<b>Ethical Concerns</b> .....	<b>238</b>
<b>Conclusion</b> .....	<b>239</b>

## CHAPTER 9

<b>Trial by Combat: Hypothesis Testing</b> .....	<b>241</b>
<b>Overview</b> .....	<b>241</b>
<b>Hypothesis Testing Process</b> .....	<b>242</b>
Determine the Problem Statement .....	243
Propose a Solution Hypothesis .....	244
Design the Experiment .....	245
Run the Experiment .....	248
Interpret the Results .....	249
Take Action .....	249
<b>Primer on Statistical Inference</b> .....	<b>250</b>
The Central Limit Theorem .....	251

Confidence Intervals ..... 252  
     Using the Standard Normal Table (Z-Table) ..... 255  
     Confidence Interval Experiment Design ..... 258  
 Two-Sample Confidence Intervals..... 259  
 Two-Sample Hypothesis Tests..... 261  
     Common Error Types..... 261  
     Hypothesis Testing Parameters..... 262  
     One- vs Two-Tailed Experiments..... 264  
     Power Analysis to Calculate Sample Size ..... 265  
     Evaluating the Null Hypothesis ..... 267  
**Conclusion .....269**

**APPENDIX A**

**Recommended Further Reading ..... 273**

**APPENDIX B**

**Glossary ..... 275**  
**Index of Key Terms ..... 297**
